VUHARIKA VALLABHANENI

+91-6305386282 | vallabhanenivuharika@gmail.com | LinkedIn | Portfolio

SUMMARY

B.Tech graduate in Information Technology with a strong foundation in programming, software development, and web technologies. Hands-on project experience building a full-stack service-marketplace platform and a deep learning model for wildfire prediction. Effective communicator with strong problem-solving skills, seeking an entry-level Software Developer role to contribute to impactful projects.

EDUCATION

B.Tech, Information Technology *08/2022 - 2026*
Vignan's University | GPA: 8.3 / 10

HSC (Intermediate) *04/2020 - 04/2022*
Narayana Junior College | GPA: 9.3 / 10

SSC *04/2019 - 04/2020*
Vignananda Bala Kuteer | GPA: 10 / 10

TECHNICAL SKILLS

Languages: Python, Java
Core Concepts: OOP, DBMS
Web Technologies: HTML, CSS, JavaScript
Databases: MySQL, SQL
Tools: Git, GitHub
Soft Skills: Communication, Teamwork & Collaboration, Problem-Solving

PROJECTS

Workers Hub | *HTML, CSS, JavaScript, MySQL*

- Developed a web-based platform connecting users with skilled professionals offering services such as cleaning, beauty, electrical work, and repairs.
- Enabled users to browse and hire professionals based on availability and preferences.
- Implemented a smart matching algorithm that recommends suitable professionals by considering location, service type, and time availability, enhancing user experience and service efficiency.

Wildfire Spread Prediction | *Python, TensorFlow, CNN, Satellite Data*

- Developed a deep learning model to predict wildfire occurrences using satellite imagery.
- Utilized a dataset of over 19,000 labeled images categorized as Wildfire and No Wildfire.
- Implemented a Convolutional Neural Network (CNN) to detect and classify high-risk regions.
- Improved prediction accuracy through data preprocessing, data augmentation, and hyperparameter optimization, supporting early detection and proactive wildfire management.

Admito – School Admission Portal | *HTML, CSS, JavaScript, MySQL*

- Built a school admission portal enabling users to search, filter, and compare schools, submit admission applications, and track application status; implemented role-based access, admin dashboard, school management, and application management using Supabase Auth and Row Level Security.

CERTIFICATIONS

- **PET Certificate** — B1 level, Cambridge English Assessment, 2023
- **Lingua Skill Certificate** — B1 level, Cambridge English Assessment, 2024
- **Human Computers and IoT Certification** — Design and implementation of Human Computers and IoT
- **Cyber Security Certification** — Cyber Security Awareness (Participation Level)

INTERESTS

Tech Enthusiast — participates in hackathons, blogs on tech topics, and explores machine learning fundamentals through hands-on experimentation with datasets.
